SCHOLARSHIP REPORTS FOR FRATERNITIES, SORORITIES AND HOUSE CLUBS

The average scholarship record for the semester January to May, 1922, was 2.4287 for undergraduate sorority and house-club women, and 2.7935 for undergraduate fraternity and house-club men. For the semester August to December, 1921, the average scholarship record was 2.5179 for women's organizations, and 2.9320 for men's organizations.

The average of each organization is computed by adding the number of units of grade "A"; twice the number of units of grade "B," three times the number of units of grade "C," etc., up to six times the number of units of grade "F" and dividing the sum of these products by the total number of units. "Incomplete" is rated as equivalent to grade "E" and units for which grade "Passed" have been assigned are disregarded entirely.

Following are the comparative standings for sororities and women's clubs:
